

## TWISTY-TURNEY TEAM TRUST

Secret Yeti Agents need to be able to trust the other members of their team with their safety.

- Draw a long winding line or circle on the playground adding lots of strange angles (or multiple lines if you have a lot of agents in your class.)
- Put your agents into pairs and ask them to take turns to close their eyes and be guided round the course by their partner.
- The guide agent should try not to touch their partner, but instead try to guide them giving spoken directions.
