

# A HIDE & SEEK ADVENTURE

Read the 'Hide and Seek' yeti story together to familiarise yourself with the yetis adventures.

Print and laminate your Adventure Kit to help you and your child explore together in lots of different ways.

Visit a place with lots of trees and talk about everything you see and do to help your child expand their vocabulary and learn new things. (Only use your phone for pictures!)

Talk about what might make a good or a bad hiding place for the yetis and look for some on your travels.

Collect as many different leaves as you can.  
Make this activity extra fun by winding some Sellotape backwards round your child's arm, and sticking the leaves to it as you go.
