

POWER BOOST

YET

No matter what the challenge or problem, you have the power to find the solution through perseverance and determination.

It's ok not to know what to do ... it just means you haven't figured it out

YET.

Look again at the chunks you've broken your problem into ...

Look again at the 'what if's' that might arise ...

You might not have the skills or knowledge **YET that you need to solve your problem, but you will if you keep trying ... the power lies with you!**
