## PRACTICAL PROBLEM BREAKDOWN

- Use this sheet to help you break your problem into manageable chunks.
- Cut them out and move the boxes around until you're able to sort them into three piles to tackle: easy to get started / might need help / need to work out a strategy.
- Use the back of the boxes to write any ideas or information you might have to give yourself a head start taking on each piece. Use as many or as few as you need.

	eg on each piece. Use as many or as few as you need.
