

ROAR SCORE

WILL YOU COLLECT THEM ALL?

HOW TO PLAY

Each playing card has four categories to compare with your friends:

- Fang-tastic Features
- Hide and Seek Rating
- Grrowth Mindset Groove

and of course ... the Roar Score!

1. Spin the ROAR SCORE spinner to find out which category to compare on your turn.

2. If your spinner lands on Fang-tastic Feature
Hide and Seek or
Growth Mindset Groove

then check below on the spinner to find out whether you'll win with a higher (H) or lower (L) number score that round.

If your spinner lands on ROAR SCORE you can choose any category and choose whether to play for a higher or lower number that round.

Example:
For this round you would win with the lowest hide and seek score.

3. The losing player will add both cards to their pile.
4. First person to give away all their cards in the game wins!
