

# FOLD A SINGING DOT YETI

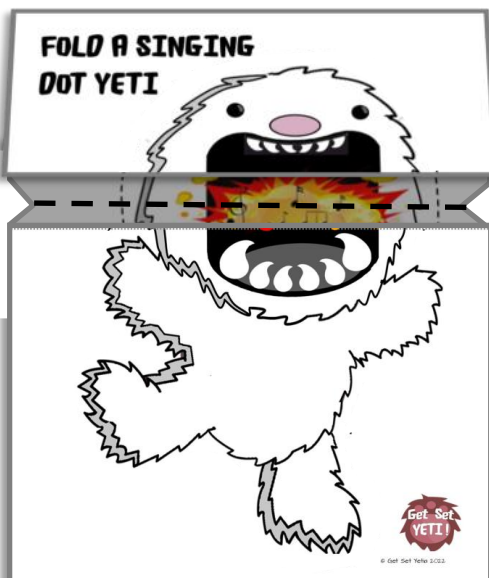

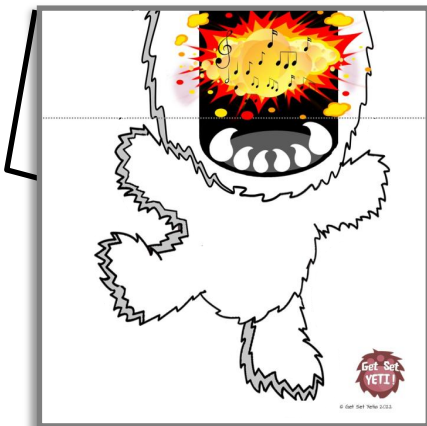

# MAKE YOUR OWN CAROL SINGING DOT WIDE MOUTH YETI

For little yetis and their grown-ups to make together

- Print out your Wide Mouthed Dot
- Draw in a Christmas background.
- Fold right across the line beside your yeti's upper set of teeth backwards.

- Bring the edge of the top fold down to meet the bottom set of teeth and press down (this will make a fold sandwiched inside).
- Now you can open and close Dot's mouth as she sings!
